D2L

Learning Administration Manager

Need Dedicated Expertise to Help Administer Your D2L Learning Environment?

LET OUR TRAINED EXPERTS ADMINISTER D2L BRIGHTSPACE AND COURSE MERCHANT

Your Learning Administration Manager (LAM) will address day-to-day administration tasks and provide consulting to optimize your platforms, so you can focus on your strategic goals. Whether you need a resource to help share your responsibilities or a full-time dedicated administrator, we have you covered.
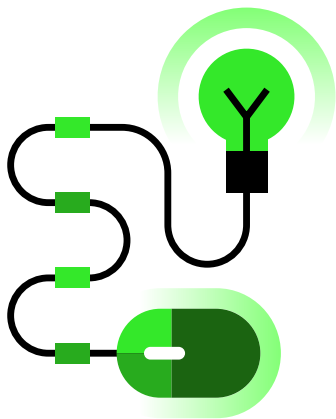

97.29%
Customer Satisfaction Score (2023)

Save time hiring or training an in-house resource and reduce concerns around business continuity. Your LAM is a D2L-trained expert who can help your organization accomplish more in less time.

Work with an expert who understands your organization's goals and needs. Delegate all the administration of Brightspace and Course Merchant to a D2L expert, get data guidance, and consult on product knowledge and best practices.

Optimize how Brightspace and Course Merchant are being used at your organization. Your LAM can support with platform configuration and management and keep your learning environment up to date with new features as they're released.

" The LAM program has been an **invaluable** resource to us. Our LAM is now a part of our family here at Pace University. We use LAM to help resolve issues, have an open dialogue about our needs and how D2L can address them. Having this type of support has allowed us the **comfort** in knowing there is no issue that we cannot find the answer for."

Antonio D. Soares Jr., Sr. Manager, Academic Technology, Pact University
